Professional Summary

Enthusiastic Full Stack Developer specializing in MERN stack with hands-on experience in building scalable web applications. Proficient in RESTful APIs, CRUD operations, and frontend-backend integration. Passionate about developing AI-powered solutions and improving user experience through efficient design and performance optimization.

Education

- **Syed Ammal Arts and Science College** 2023 – 2026
B.Voc in Software Development
- **Government HR Sec Model School** 2020 – 2022

Experience

- **Novi Tech – Full-Stack Development Intern** Aug 2025 – Sep 2025
Completed a one-month Full-Stack Development internship with hands-on project experience.
Trained in MERN stack (MongoDB, Express.js, React, Node.js) through a structured program.
Participated in testing, debugging, and version control of software projects.
Applied professional software development practices and team collaboration.
- **Tarcin – Front-End Developer Intern** Oct 2025 – Nov 2025
Assisted in designing and developing user interfaces for web applications.
Implemented interactive and dynamic features using HTML, CSS, and JavaScript.
Improved website usability, responsiveness, and overall user experience.

Projects

- **Employee Management System with Face Recognition** | MongoDB, Express.js, React.js, Node.js
Developed a full-stack employee management system with face recognition-based attendance tracking.
Built RESTful APIs and implemented CRUD operations for managing employee and HR data.
Implemented user authentication and designed a responsive dashboard for real-time attendance tracking.
- **E-Commerce Website** | MongoDB, Express.js, React.js, Node.js
Developed a full-stack e-commerce platform with product catalog and order management features.
Built RESTful APIs and implemented CRUD operations using Node.js and Express.js.
Integrated MongoDB for secure data storage and designed a responsive user interface.
- **AI-Powered Pharmacy Management System** | MongoDB, Express.js, React.js, Node.js
Developed an AI-powered pharmacy management system with inventory, billing, and prescription management.
Built RESTful APIs and implemented CRUD operations using Node.js and Express.js.
Integrated MongoDB for secure data storage and real-time tracking with AI-based features.

Technical Skills

- **Languages:** C, Java, HTML5, CSS3, JavaScript, SQL
- **Frameworks:** React.js, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **AI/Tools:** Git, GitHub, VS Code, Postman, Chrome DevTools, ChatGPT, Claude, GitHub Copilot,
- **Deployment:** Netlify / Vercel / Render

Achievements

- Developed a personal portfolio website to showcase academic and personal projects
- Completed certification in Full-Stack Development
